## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CRAIG (for himself, Mr. BAUCUS, Mr. LOTT, Mr. CRAPO, Mr. SESSIONS, Ms. SNOWE, Ms. COLLINS, Mr. COCHRAN, Mrs. LINCOLN, Mr. BURNS, and Mr. MILLER):

S. 219. A bill to amend the Tariff Act of 1930 to clarify the adjustments to be made in determining export price and constructed export price; to the Committee on Finance.

Mr. CRAIG. Mr. President, I come to the Chamber this morning, with a

number of my colleagues, to discuss what is a critical issue in timber country across the United States, where men and women go to work every day in our sawmills only to find the mill has been shut down and the lights have been turned out.

As a result, that has been a problem which has grown for some time because of the Canadians, their style of production at this moment, and the huge volume of timber they are pouring into this country. It is a market condition that will continue to shut down many of our mills, some that will never turn on their lights again, some that will never again employ men and women in the small towns where most of those mills are across the country.

Today, some of my colleagues and I are introducing legislation to work cooperatively with the administration in trying to resolve this through negotiation. This legislation is being offered on behalf of myself, Senator BAUCUS, Senator CRAPO, my colleague from Idaho, who is in the Chamber, Senator SESSIONS, Senator SNOWE, Senator COLLINS, Senator COCHRAN, Senator BURNS, and Senator LINCOLN.

In introducing this legislation today, we are amending the Tariff Act of 1930 to clarify what is an appropriate deduction from the price of merchandise. We believe the deduction of the countervailing duty should be included in the calculation in determining whether or not and to what extent there have been sales dumped at less than fair market value in the United States.

Some time ago, we established a countervailing duty against Canadian products coming into this market. This is in response to that and the way it is calculated.

While the Department of Commerce has worked diligently on the softwood lumber case, the Canadian industry and Government continue to effectively avoid the countervailing duty and antidumping orders. The most recent move by the Canadian Government to avoid the countervailing duty is to declare a significant region of interior British Columbia bug kill timber. This particular green lumber—or timber in this case—is being sold at salvage prices and has flooded the amount of available timber already in the market.

The price for this timber is now as low as a dollar per thousand board feet, while the competitive market value is over \$100 per thousand board feet—in other words, on the stump at the time of the sale.

I remind my colleagues a majority of this determined bug kill has not yet been affected by bugs. It is simply a decision made by the Canadian Government in this instance. Yet they are selling it at prices that are as if it had been affected by disease.

Next, British Columbia has revised their forest practice code to reduce costs to the lumber manufacturers by decreasing forestry standards and placing logging corporations in charge of
